Good morning all,

Could you please tell me what may be discharging from the milkhouse area at the Medina (0730) and Hudson Dairies (0507)? It appears red in color, may be discharging on the ground and possibly to a stormwater drain at Medina Dairy, and into a possible tile line at the Hudson Dairy behind the milkhouse area? I have marked the areas on the aerial photos that were taken yesterday by Lighthawk/SRAP.
